

Greetings. I am writing to ask that K-Love not be forced off the air because of LPFM "priority." K-Love not only provides my community with news, hope, encouragement, and special events notices (free of charge to non-profit orgs.), but also provides a tangible connecting resource for people who are hurting, and just need someone to talk to. The loss of K-Love would be significant to my community, as I live in one of the highest-churched regions in the state of Oregon. Currently this station is played in many of our local businesses, all day long, because there's nothing vile or offensive to worry about in content. Additionally, losing K-Love would be losing a powerful means of interdenominational fellowship: K-Love serves across many denominational boundaries, helping us to appreciate one another without regard to titles. K-Love is needed!!!! Please do not jeopardize our K-Love programming!
